

Quality Provision Policy

Created : January 2026

To be reviewed: January 2029

We aim to provide high quality care and education for all our children. High quality care leads directly to better outcomes for children and this is what we are all aiming for.

At Little Learners Nursery Group, we believe that children who experience a high quality provision are well placed to achieve higher outcomes at school and **develop better social, emotional and cognitive abilities necessary for life-long learning.**

We use developmentally appropriate, open-ended resources in both the inside and outside areas, to enable our children to become more independent, challenged, imaginative, experimental, co-operative and collaborative through movement and play.

Quality Provision

Learning through play and movement is very important as young children need an exceptionally well organised, calm environment with clearly defined areas and ample space both inside and outside.

This promotes the following:

- Physical Development
- Exploration
- And responds to children's individual interests and specific needs.

As part of our quality practice we will do the following to ensure children receive the best care and education:

- Ensure high expectations for children to realise the best outcomes
- Ensure all staff know what is meant by quality practice and how to deliver it
- Create a quality vision that all staff can follow
- Deliver high quality practice and teaching that makes a difference on a daily basis to children's outcomes.
- Ensure a solid understanding of the importance of pedagogy and child development amongst all practitioners
- Value continuous professional development in all staff and access a variety of training and development to support the needs of the children in the nursery

- Evaluate the effectiveness of training and link to the outcomes for children
- Ensure all staff are confident in their roles and have the training they need to be able to perform these roles
- Conduct regular supervision meetings with all team members to ensure all staff are supported to be the best they can be
- Use peer on peer observations to share, discuss and improve practice across the setting
- Monitor all practice and feedback ideas for improvement
- Ensure all planning, observation, assessment and next steps are linked to each individual child's needs and interests and are evaluated for effectiveness
- Undertake a quality programme to ensure all quality is embedded throughout the nursery
- Engage with families and carers and link across the home learning environment and other carers to provide consistency of care and education
- Operate a robust and embedded evaluation process across the whole setting that includes all parties such as practitioners, children, parents and external partners. We tackle poor performance using our staff procedures to ensure high quality remains at the forefront at all times.
